1	The course covers general topics and conveys them very clearly.	Q
2	I thought this class was taught well, I liked the slides and thought the material was very well presented. The last test was a bit intimidating, and didn't seem to quite align with my expectations, but prior to that I overall enjoyed the class.	Q
3	I learned a lot. Examples were very useful in elucidating difficult and abstract concepts.	Q

Very effective. Both the slides and the in-class instruction were intuitive and well organized. Professor Wilson

1	1 was the most clear instructor I have had in some time.	Q
2	She is occasionally a little fast and prepares more material than is possible to cover in the otherwise excellent. She is passionate, highly intelligent and motivated and an excellent to home the point. I have never enjoyed Microeconomics before, and have in fact feared the this class has helped me overcome my dislike and learn better.	eacher who drives
3	I wish she could talk a little slow, sometimes she go so fast that it is hard to follow the cla really good to understand the ideas.	ss, but the lectures are
4	I thought she did a very good job of teaching the course. She talks a little fast, but we got amount of material, and if we couldn't cover something in class her notes are generally ve	through a decent ry thorough.
5	I like Professor Wilson. She explains everything clearly and works hard to help us build into Exams can be challenging but still fair. Personally I would hope to have more lectures and part, which is the hardest for me but has not been as fully discussed as other parts. Overa for my first semester in this program and really gets me to gain interest in microeconomic	practice on the GE Ill amazing experience
